Through targeted recruitment of participants for the event, you will have an opportunity for high-level networking, unprecedented access to decision makers across sectors, and admission to inspiring presentations and panel discussions featuring international leaders.

Uniquely designed opportunities for:

- **An international summit** with keynotes, presentations, and discussions
- **Showcasing** of solutions in a large networking area
- Uniquely tailored **matchmaking** services that will connect markets, technology, and finance for investment flows and deal-making
- **Side-events** involving interactive workshops, product launches, receptions, and much more.

Expected Benefits & Outcomes

- Tangible steps to implement the **Paris Agreement** through low carbon transition strategies and investment plans
- **2000+** stakeholders to explore new market opportunities in the US and internationally
- Engagement in **strategic partnerships** and deal flows that will drive the clean economy forward
- Acceleration of **finance, technology, and solutions** to support the low-carbon transition
